Planning your Bathroom Space

There's a great deal to consider when thinking about the design and build of your new bathroom space.

Your bathroom space is one of the busiest rooms in your home. It must be functional and practical both night and day, but that doesn't have to be at the expense of style or comfort.

Considerations...

Floor Plan

Whether the style you crave is one of understated elegance, full-on glamour or something more modest, planning ahead is the essential way to get the best out of your bathroom.

Your first step should be to devise a floor plan; see inner back page for a layout planner.

Think about what items you want to include, and how they will be used. It is crucial to make sure you factor in enough space for standing and moving around.

Suitability for All

Think about who will be using your bathroom. Freestanding baths might look fantastic, but can be difficult for children or the less agile. Looks alone should not sway your decision, make sure you go for function as well as form.

Storage Solutions

Modern minimalist designs only work if all bathroom products are carefully and cleverly concealed. Plumbing paraphernalia is also best hidden away from view. Concealing it within furniture is a great solution, as it still remains accessible for any necessary maintenance.

Heating & Towel Rails

Underfloor heating is an excellent alternative to radiators, offering a warming solution for a contemporary style bathroom. It is simple to install during the flooring phase, and provides heat across the entire room space.

Heated towel rails have also become a must-have for the modern bathroom. Choices range from the more traditional chrome and stainless steel finishes, to an array of colours that can be matched or contrasted with your other bathroom design preferences.

Interior Decoration

There are many materials, styles, textures and finishes to choose from when decorating a bathroom. Tiles in a wet environment are the most popular option, as they are both practical and wonderfully aesthetic. They can also help make spaces appear much larger.

Using a panel of vibrant wall colour can create a dramatic look. Bold hues can add zest and warmth or when used sparingly against a sleek white bathroom will instantly create a modern contemporary feel.

Adding texture with more tactile materials such as wood and glass can be wonderfully relaxing, adding a spa-like quality to your space.

Mirrors & Lighting

Lighting can make a huge difference to the mood of your room. For example; flush fitted recessed lights in the ceiling will help fill the room with a soft ambient light.

Mirrors are not only a bathroom essential, cleverly used they can also make a bathroom seem both larger and brighter. And much like lighting, your bathroom may benefit from the use of multiple mirror configurations which can effectively alter any surroundings.

WORKTOPS

Our worktops have been developed to be used in conjunction with our semi-countertop basins. Just like our units, they are available in standard or slim depths. The Strata solid surface or laminate worktop range is designed to finish your units perfectly. Alternatively, you can opt for our Isocast worktops with integrated basin for a sleek contemporary look.

Strata solid surface

Available in 4 finishes and supplied in 1280mm and 1880mm lengths. Can be cut and finished during the installation process.

Cabinets & Mirrors

Bathroom must-haves that create the illusion of space. The finishing touches for an elegant bathroom.

Our collection of cabinets will keep things organised and create more useable space. Adding an attractive mirror to your design will help make your bathroom look bigger and much brighter.

LED lighting in mirrors and cabinets helps to simulate natural light, while demister pads prevent the glass from steaming up.

Taps

Striking creations, crafted to perfection. Create a beautiful focal point in your new Esteem Bathroom or Kitchen.

Taps are a crucial element of your bathroom or kitchen. Our tap ranges are designed not only to function perfectly, but also to visually enhance the appearance of any room they occupy.

A minimalist look with a slim, high-rise tap combined with a vessel basin will create a stylish and contemporary designer feel.

Esteem Prestige Collection	P124 - 133
Esteem Range Taps	P134 - 142
Kitchen Taps	P143 - 149
Traps & Wastes	P150- 151

Our Esteem packaging is also sustainable, being easily recycled and biodegradable. It contains no plastic content.

CHROME 3+ FINISH

Many of our Esteem Chrome Taps are finished in a sustainable innovative 'Chromium 3 finish', also sometimes known as 'Green Chrome'. Where the C3+ logo appears, the decorative Chrome Plating has been conducted using a far more environmentally friendly process, helping to reduce potentially harmful toxins and pollutants being released into the wider environment.

COLD START

Cold Start, helps customers reduce energy costs by always starting from the cold position, reducing hot water demand when it may not be required, extending the life of Combination Boilers and helping to save the planet.

Complete functions

Our Smart Toilets offer multiple ways to access its features at one touch of a button: for simplicity, you have the convenience of basic wash and dryer cycles with the easy-to-reach buttons on the right of the pan, in addition to the brushed steel rotary control knob. For a fully customisable experience, the intuitive Bluetooth remote control offers you these basic wash and dry cycles in addition to a range of adjustments which optimise cleaning performance on a personal level.

Washing

Rear wash, woman wash and comfort wash functions (each programme runs for 3 minutes).

Arc shape sprayer

Moveable for the most efficient cleaning angle.

Detachable sprayer

Sprayer nozzle can be detached for easier cleaning.

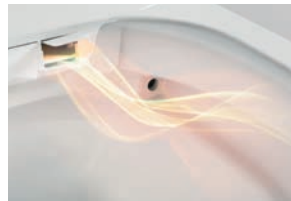

Soft-closing seat

Our soft close seat ensures quiet use during the night, prolongs the life of the hinge mechanism.

Night light

The night light automatically activates in low-light to help illuminate the pan.

Fast drying

Adjustable temperature to meet your personal preference (between 40-60 degrees).

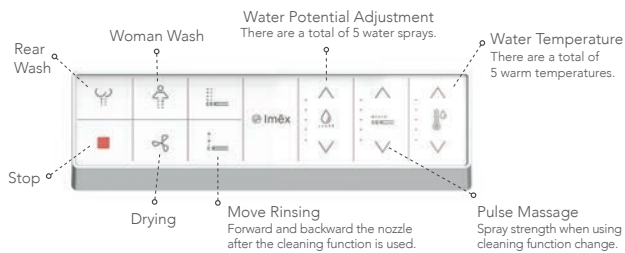

Pre-mist

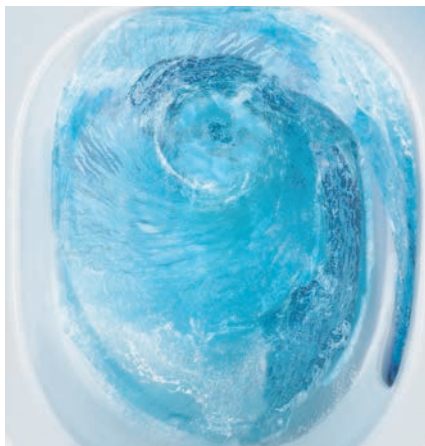

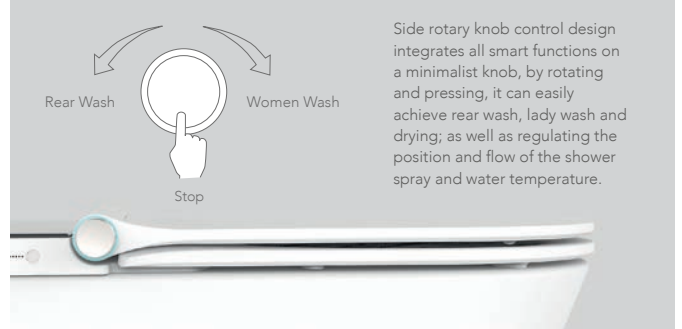

Triggered by the Infrared sensor, the pre-mist feature provides a light spray around the pan to minimise cleaning and optimise flushing.

Remote Control

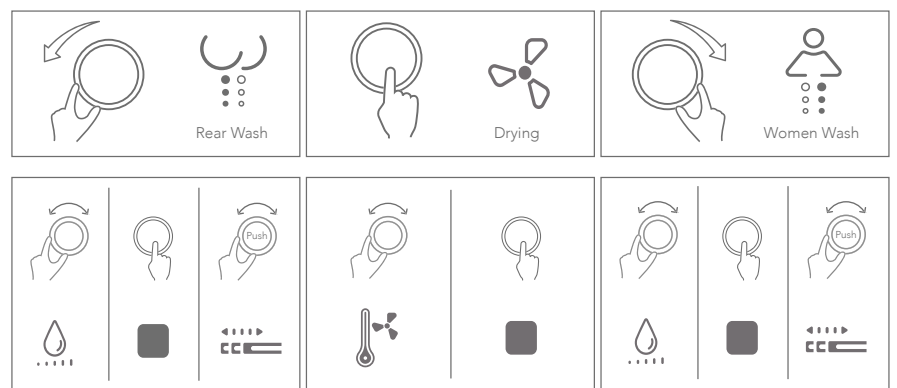

Simple and clean design, functional operation at a glance; tilted design ergonomics, make the controller more comfortable to use and operate.

One rotary knob control, easy operation

Details Make The Design Delicate feel, light guide with comfortable operation. Micromesh texture with intuitive touch. Many features with one control.

Baths

A luxurious long soak in a comfortable bathtub. Relax, refresh and revitalise.

At the end of your day, nothing beats a nice long hot soak in a bath for a feeling of relaxation and wellbeing. Our great selection of baths will allow you to take some time out and treat yourself.

A popular choice for both style and function, L and P-shaped baths in addition to the more traditional straight bath styles, are a great way to maximise space with matching bath screens.

The Ultimate Premium Reinforced Acrylic Bath

All Premiercast baths are constructed by hand. The bath is formed from high quality 5mm acrylic, to which a full timber supporting frame is added to both the base of the bath and the underside of the rim. This creates a strong base to then apply by hand, 7 layers of fibreglass core matting.

Between each layer a resin bonding adhesive is added which, when dry creates a super strong encapsulated bonded core. Finally the bath is coated with a mix of resin and blue paint, which provides a smooth and super strength final bonded surface.

Reinforced Acrylic Baths

All reinforced acrylic baths are constructed by both hand and automated processes, for efficiency and speed.

The first process is to form the bath from high quality 5mm acrylic, a full timber supporting frame is then added to both the base of the bath and the underside of the bath rim. This creates a strong base for the fibreglass sprayed layer, encapsulating the frame creating a durable and strong bath.

Finally the bath is coated with a mix of resin and grey paint, which provides a smooth and strong final bonded surface.

Lighting & Ventilation

A refreshing approach to bathroom design.

Our extractor fans provide a fresh, cleaner atmosphere for your room. They help keep your bathroom properly ventilated, which also helps to prevent mould and mildew.

Bright, clear light is essential as you prepare for the day. Spotlights and downlights are ideal for directing a focused light towards any surfaces that are in high use.

Combine one light with another to ensure full coverage or brighten up certain areas to create a particular mood.

ELECTRIC UNDERFLOOR HEATING

Keeping your home warm

Will radiators spoil the minimalist look you've created in your bathroom?

Underfloor Heating is a great way to keep rooms warm. It is simple to install when tiling, helps with condensation, provides heat across the whole room, and feels lovely and cosy under bare feet on a cold morning.

Underfloor heating has lower running costs than traditional central heating systems, and is considered a more environmentally conscious way to heat your home.
